Subject : Job No. D4019 – AP Power Development Co. Ltd, Sri Damodaram  
Sanjeevaiah Thermal Power Station, Units # 1 & 2 (2 x 800 MW) –  
Balance of Plant – Sub Vendor approval

Reference : Your letter CCL 431/SDSTPS/F Vendor Approval/ D No 39/11 dated  
07.02.2011

Dear Sir,

This has reference to the above referred letter enclosing credentials of sub vendor **Poly Flex, Mumbai** for application of **Evercrete products**. We have reviewed the product literature, credentials, test results and our observations are as follows:

**Evercrete Deep Penetrating Sealer (DPS)** is recommended for water proofing of the concrete structures preserving the concrete thereby extending the lifetime of concrete structures.

**Evercrete DPS** allows the concrete to breathe which will reduce formation of cracks.

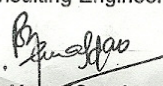

**Evercrete DPS** helps as anti-carbonation coating on concrete surfaces.

**Evercrete DPS** is recommended for use in water tanks, water sumps, clarifiers, cooling tower basin and cooling tower superstructures.

Based on the above, APGENCO may consider approval of **Evercrete DPS** material for water proofing of concrete structures

Kindly acknowledge receipt.

Very truly yours,
